<b><u>Name and Type of Event/Activity</u></b>	INDUSTRIAL VISIT TO “VAPI GREEN ENVIRO LIMITED” CETP
<b><u>Department</u></b>	MICROBIOLOGY & BIOTECHNOLOGY
<b><u>Organized by:</u></b>	Dr.Archana Pandey, Swarnnim Science College
<b><u>No of participants</u></b>	51
<b><u>Facilitator</u></b>	SWARRNIM SCIENCE COLLEGE

### **SUMMARY:**

The industrial visit was organized for UG & PG students of MICROBIOLOGY & BIOTECHNOLOGY to “VAPI GREEN ENVIRO LIMITED – CETP” VAPI Gujarat on 29<sup>th</sup> February 2020.

Students reached by 10 o clock at the plant. Further 2 authorized person were appointed for explaining the whole process which was going all around.

Students were divided in batch of two and further explained how the waste water across the city is collected and treated in the same plant and then released in the environment.

**CONCLUSION:**

The aim of this visit was to make students understand properly as they study the same subject in Sem 3 as “Soil & Water Microbiology” which will help them understand better and get practical knowledge. Also get to know the problem faced by industry for treating waste water generated in tons of liter every day. So that in future they can think of developing some new method for treating the waste water generated.

Here are the glimpse of the visit.
